The average new vehicle gets 29 MPG and costs \$8,500 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at \$0.17 per kW-hr. MPGe is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of global warming and smog.</div> <div>fueleconomy.gov</div> <div>Calculate personalized estimates and compare vehicles</div> <div><div><div>U.S. DEPARTMENT OF ENERGY</div><div>U.S. DEPARTMENT OF TRANSPORTATION</div><div>U.S. ENVIRONMENTAL PROTECTION AGENCY</div></div></div>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  | <div>Smartphone QR Code™</div> <div></div>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |  |
